Questions? Don't hesitate to call us:

Supplemental Pollination Increases Hive Strength!

The number of bees in the field force increases dramatically with the number of frames per hive. Firman Pollen works as a natural bee stimulant, boosting the number of frames per hive.

Hive Strength and Field Force

Each frame 3/4ths covered with bees equals 2000 bees.

Frames	Bees/Hive	%Field Bees	FieldForce/Hive
4	8,000	N/A	few to none
6	12,000	25%	3,000
7	14,000	30%	4,200
8	16,000	40%	6,400
10	20,000	45%	9,000
12	24,000	50%	12,000

If you have questions about Supplemental Pollination Increases Hive Strength, contact Bob Bishel at 559.871.0967
